THE SOUTH KANARA LIVE-STOCK IMPROVEMENT ASSOCIATION

MANGALORE

President:
RAO BAHADUR K. T. ALVA,
RTD. JOINT DIRECTOR OF AGRICULTURE

Secretary:
DR. K. B. SHETTY
HAMPANKATTA

20th August, 1952.

To

The Director of Community Projects,
MADRAS.

Sir,

I have the honour to present you the following resolution of the above Association:-

Resolved to request the Director of Community Projects to include in the Scheme the cattle fodder problem of the District in summer months. To have healthy and good cattle it is quite necessary to have good fodder grass throughout the year both for grazing and stall feeding purposes. Inspite of the heavy rains during the monsoons in South Kanara there is no fodder grass of nutritious quality available after January upto June. During summer all grass gets scorched and the cattle of the

area become weak during that period. To improve the quality of our cattle not only should pedigree be improved but also fodder grass.

Therefore the Association requests the Director of Community Projects, Madras to include in the Scheme for Community Centre in South Kanara a Fodder Grass Research Institute to evolve a fodder-grass which can be grown in the West Coast on a large scale so as to solve the cattle problem throughout the year.

Yours faithfully,

K B Shetty

L.Dis.L.4.1520/52 dated 14-9-52.

Sir,

Sub: RESOLUTION PASSED - Scheme of cattle fodder problem -- Inclusion in the Agenda - Remarks - offered.

p. 2 ante —Ref: Your Endt. No.74-Public-Cp.II/52-1 dated 2-9-52.

The Secretary, the South Kanara Live-stock Improvement Association, Mangalore has stated that no fodder grass is available between January-June due to drought. He has therefore suggested taking up research work in evolving a suitable variety.

2. During the months referred to above, Guinea grass or Napier grass if grown under irrigated conditions, can solve the problem. The propagating slips can be arranged for supply.

3. Some drought resistant grasses are available with the department. The seeds will be supplied and demonstrations plots will be arranged under rainfed conditions in grazing grounds, whenever facilities are available.

4. Also the surplus hill grass available in some of the areas during the monsoon time could be converted into silage for use during the lean months.

The fodder problem in the State has been examined previously. A scheme for the establishment of a grass farm with detailed statement of cost is enclosed.

pp. 11-12 infra

Yours faithfully,

for Director of Animal Husbandry, Madras

vgm.19-10

Scheme for Establishment of Grass Farms in the Province of Madras.

In view of the grave situation with regard to the problem of fodder for cattle in this Province, I wish to place the following scheme for consideration with the experience I have had in Military Farm Department during the war and at Hosur. I feel, the only way, to solve the problem is to have our own grass farms for meeting civil needs. In addition to the preparation and storage of hay or any other fodder crop in these farms dependent on the locality very useful cattle will be permitted to be grazed in the farm under strict control. In addition to rotational grazing such of the animals that are permitted into the area for grazing will be automatically protected against diseases and suitable bulls will be used for breeding.

As there is no private enterprise in this method of farming the whole organisation shold be undertaken by Government.

A beginning in this direction is certainly the establishment of a few grass farms on a large scale worked with mechanical power, some in the famine areas and the rest in the cattle breeding tracts. The measures that are being adopted for increasing the production of food grains for human consumption will automatically increase the production of cattle fodder. But as they will not give adequate relief other methods have to be adopted urgently.

An approximate estimate of the capital cost of each such grass farm is as follows:

	Rs.
Capital outlay - non recurring.	
2000 acres of grass land at Rs.250/- per acre (no need if Government land available)	5,00,000
Buildings, sheds for grasses, Manager's quarters, quarters for staff and some menials, Veterinary Hospital etc.	1,50,000
Machinery including transport etc.	1,50,000
... Total	8,00,000

Recurring charges - (Estimate for 1 year)	Pay Rs.	Dearness Allowance.
STAFF:		
1. One Manager (Agriculture trained at Hosur) (260-700) pay Rs.260/- p.m. Dearness Allowance Rs.52/-	3,120	624
2. One Veterinary Assistant Surgeon for management of Livestock and grasses (Rs.120-250) pay Rs.140/- p.m. and D.A.Rs.33/- p.m.	1,680/-	396
3. One fieldman (Rs.45-60) pay Rs.45/- p.m. Dearness Allowance Rs.22/- p.m.	540	264
4. One Maistry Rs.35/- p.m. Dearness Allowance Rs.19/- p.m.	420	228
5. Two drivers Rs.45/- each p.m. Dearness Allowance Rs.22/- each p.m.	1,080	528
6. 30 (coolies) pay at Rs.16/- each p.m. and Dearness Allowance at Rs.18/- each p.m..	5,760	6,480
7. One stockmen compounder (Rs.35-60) Pay Rs.35/- and Dearness allowance Rs.19/- p.m.	420	228
	13,020 or 13,000	8,748 or 8,700
	21,700	

12

Brought forward	21,70)
8. Lumpsum provision for cultivation expenses	75,000
9. Petty Construction and Repairs	5,000
10. Deadstock and repairs and upkeep	5,000
	1,06,700

Receipts

By sale of grass fodder 15,00,000 lbs. at Re 1/- per 100 lbs.	15,000
By sale of 4000 tons of hay at Rs.2/- per 100 lbs.	1,79,200
Grazing fees for 500 animals at Rs.10/- per animal	5,000
Total	1,94,200

The estimated quantity of grasses that can be produced will fetch about 4000 tons at two tons per acre of hay, besides the animals will have rotational grazing facilities. The hay and grasses will be sold for feed of cattle in the surrounding areas. The above estimates are for an average crop with normal irrigation facilities and rainfall. If adequate irrigation facilities and a good rainfall are assured, the quantity of fodder raised will be more and a greater margin of receipts over expenditure can be expected.

Six farms may be started each year so that within 5 years we should have a chain of farms in all important areas of the presidency. Some of the village Panchayat Forests can be brought under this scheme.

Public (Community Projects-II) Department

Sub: PLANNING COMMISSION--Community Projects--South Kanara District--Opening of a Fodder Grass Research Institute.

Ref: From the Secretary, the South Kanara Live-Stock Improvement Association, Mangalore, letter dated 20-8-52.

Please see the letter in the C.F. from the Secretary, The South Kanara Live-Stock Improvement Association, Mangalore, enclosing a copy of the resolution passed by the Association. The resolution requests the D.C.P. to include in the Community Project Programme a Fodder Grass Research Institute to evolve a fodder grass which can be grown in the west coast on a large scale to solve the cattle problem throughout the year. One of the "Broad Features aimed at in the Community Project Area" is that one third of the area of the village should be kept reserved for the village housing, grazing fields and fuel forests freshly planted if not already existing. It is for consideration

DRAFT

PUBLIC (COMMUNITY PROJECTS-II) DEPARTMENT

Letter No.74-Public (C.P.II)/52-4, dated 10-12-52.

To

The Secretary,
The South Kanara Live-Stock Improvement Association,
MANGALORE.

Sir,

Sub: PLANNING COMMISSION - Community Projects - South Kanara dt. - Opening of a Fodder Grass Research Institute.

Ref: Your letter dated 20th August 1952.

I am directed to say that it is not possible to include the opening of a Fodder Grass Research Institute under the C.P. Scheme ~~as the currency of the scheme is limited to only three years~~. I am however to add that the following facilities which are available with the Agricultural Department may be availed of by the Association for ~~the~~ raising ~~of~~ Fodder Grass and help itself and the local population ~~viz.~~,

(1) During the months of January to June, Guinea grass or Napier grass if grown under irrigated conditions, can solve the

the problem. The propagating slips can be arranged for supply by the Agriculture department.

(2) Some drought resistant grasses are also available with the Agriculture department. The seeds will be supplied by that department and demonstration plots arranged under rainfed conditions in grazing grounds, wherever facilities are available.

(3). The surplus hill grass available in some of the areas during the monsoon time could be converted into silage for use during the lean months.

9/12/52. You may address the D.A. on the above if you require 9.12.52 further information or assistance in the lines indicated

Copy to the D.A., ~~Madras.~~

fr. 5 c.f. (Issued as Memo No. 74/52-2, dated 25-9-52).

fr. 9 c.f. (From the D.A.H., Madras, D Dis. No. 1137-11 dated 16-10-52).

fr. 1-2 c.f. The South Kanara Live-Stock Improvement Association, Mangalore forwarded a copy of resolution passed by the Association requesting the D.C.P. to include in the C.P. Programme a Fodder grass Research Institute to evolve a fodder grass scheme which can be grown in the West Coast on a large scale to solve the cattle problem throughout the year. This was referred to the D.A. and the D.A.H. for remarks.

fr. 3 c.f. 2. The D.A. in his letter on fr. 3 c.f. has made some proposals for solving the problem. He has not however given the estimate of cost.

fr. 11-12 c.f. 3. The D.A.H. has submitted a scheme for the establishment of grass farms throughout the State. For the opening of a single farm, non-recurring expenditure is estimated at Rs. 8 lakhs (3 lakhs only if Govt. land is available) and recurring expenditure at Rs. 1,06,700/-. The receipts from the farm are estimated at Rs. 1,99,200/-. The D.A.H. suggests the opening of six farms each year so that within the course of five years, a chain of farms in all important areas of the State may be established.

4. The initial expenditure on the estt. of a single grass farm appears to be too much for inclusion in the Community Project Programme. Copies of letters from the D.A. and the D.A.H. may however be forwarded to the P.E.O. (& the Collr.) Mangalore, for remarks. Subject to orders, a draft memo is submtd. for approval.

CJS
4/11/52 4-11-52

A/ The establishment of grass farms Short

as the normal activity of the A.H. If the profit in return is really ensured the limit indicated by A.H., it will be a profitable investment and should be taken up by Govt. As far as the C.P. Scheme is concerned its currency limited to only 3 yrs. and in the circumstances it will not be possible to make any heavy outlay on the scheme. If the Livestock Association is a live body consisting of enthusiastic members it can avail of the facility which will be extended by the Dept. of Agri. Instead of spoonfeeding the area it may be better to tell the Association what facilities are available with the Agri. Dept. so that it may contact the A.H. and help itself & the local population

Dated, Fort St. George, 10th April 1952.

Office Memorandum.

Sub: Elections - New Constitution - House numbering and electoral rolls - Defects - Rectification.

Ref: G.O.No.2048, Public (Elections) dated 19th August 1948.

In paragraph 2 of the G.O. cited, the Government introduced a permanent scheme of numbering of houses throughout the State for the preparation of the electoral rolls under the New Constitution as well as for Census purposes. They also ordered that this numbering work should be done in accordance with the instructions issued in Annexure I to that G.O. as clarified and amplified in various subsequent orders.

2. In a number of cases, the Government noticed defects in the system of house numbering adopted and in the electoral rolls, but for want of time, or owing to other practical difficulties, ordered that the rectification of these defects should be deferred but taken up in time before the first annual revision of the electoral rolls.

3. All Collectors and the Commissioner, Corporation of Madras, are requested to submit to the Government within ten days, a list of these cases, showing separately (1) defects in respect of house-numbering and (2) defects in electoral rolls, whether noticed by the Government or by the local officers or authorities or on complaints from the public. They are also requested to cite the orders of the Government, if any, already passed on these defects together with their proposals for rectification in each case.

REF: Govt. Memo.No.2731/52-1 Public Elections Department dated 31.5.52.

****

I invite attention to para 2 of the Governme t memo. cited. The Tahsildar Puttur reports that it is not feasible to adopt the locality street system of numbering in the Puttur Major Panchayat area for want of formation of streets with well defined boundaries. He has therefore solicited instructions regarding the manner in which the numbering of houses has to be done within the Panchayat area.

2. The numbering of houses in one series for each ward in a major Panchayat area was permitted by the Government in para 3 of the Government Memo.No.8496 48-5 Public Elections dated 30.8.48. I therefore solicit urgent instructions whether the ward-war system of numbering can be adopted in the case of Puttur Major Panchayat area also.

VERY URGENT.

PUBLIC (ELEC.VII) DEPT

Memo.No. 115|52-1 Dated: 10th July 52

Sub: Elections- New Constitution- House numbering and electoral rolls- Defects- rectification- Puttur Major Panchayat.

Ref: Letter from the Collector of South Kanara No.A.11.12479/52 dated 2-7-52.

In his letter Ref. A.11.25CCO-48 dated 27-10-50, the Collector of South Kanara reported that in Puttur Major Panchayat area, the locality street system of numbering was adopted, but the buildings were numbered in one series for the entire Panchayat area instead of being numbered in separate series for each street in every locality. This shows that the locality street system of ~~numbering~~ has already been adopted in the Panchayat, and that the defects were only in numbering of the houses. The Collector now reports that it is not feasible to adopt the locality street system of numbering in the Puttur Major Panchayat area for want of formation of streets with well-defined boundaires, and suggests that the numbering may be done according to the wards. It is not clear, why this is necessary when the numbering of the streets has already been done according to the instructions. The Collector is requested to explain this more clearly. He is also requested to send a copy of the printed electoral roll relating to the Panchayat and also a rough plan for the area with the streets etc. marked for reference and return.

To The Collector of South Kanara.

ELECTIONS-IMMEDIATE.

SOUTH KANARA COLLECTOR'S OFFICE
MANGALORE, DATED 20---8---1952.

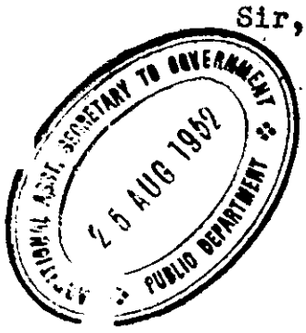
From

Sri C. A. Ramakrishnan, I.C.S.,
Collector of South Kanara.

To

The Secretary to Government,
Public (Elections) Department,
Fort St. George,
MADRAS.

Sir,



SUBJECT: - ELECTIONS -- New Constitution -- House numbering and electoral rolls -- Defects-- Rectification -- Puttur Major Panchayat Report.

-----:o:-----

REFERENCE:- Government Memorandum No.115/52-1 Public (Elections) Department dated 10.7.1952.

-----:o:-----

I enclose a copy of the Printed Electoral Roll and a rough plan with the streets etc., marked relating to the Puttur Major Panchayat. It is true that the locality street system of numbering was adopted in the Panchayat area and that the defects were only in numbering of the houses. Although the locality street system was adopted, there was no proper formation of streets in Puttur Major Panchayat. The entire Panchayat area was numbered in one series instead of adopting a separate series for each street. The houses are not on sides of streets and are scattered in some places and clustered at other places. In some places a street runs across more than one or two localities. It has since been found that before the receipt of G.O.No.2008 dated 19.8.48 no street system existed in Puttur Major Panchayat and the houses were numbered in one series for the whole Panchayat area before the receipt of the G.O. The streets ~~have~~ were named only subsequently. It will therefore be seen that the adoption of locality street system of house numbering is not feasible in a place like Puttur. In the cases of the sort where there is lack of street formations the numbering of houses by wards or other suitable blocks is permitted in Governmen Memorandum Number 383/48/9 dated 7.9.1948. I am of opinion that either the existing numbering may be allowed to continue or the wardwar numbering which exists in most other Panchayats in the District may be adopted. It is not desirable to adopt locality street system of numbering in this area. Puttur Assembly Constituency has been selected for intensive revision in 1952. I doubt whether it will be possible to rectify the defects by 31.8.52, either by adopting wardwar system or under the locality street system of numbering, to continue and have the revision next year. I request urgent instructions in the matter.
I The only alternative is to allow the existing system of house numbering

Yours faithfully

For Collector.

PUB. (ELEC.) DEPT.

Elections - New Constitution - House numbering and electoral rolls - Defects - Rectification - Puttur Major Panchayat.

From the Collr. of S.Kanara, No.All.12479/52, dated 5.5.52.

Please see the extracts from the South Kanara Collr.'s letter ~~of S.Kanara~~ on p.5 c.f. w.r.t. the memo. on p.1 c.f.

2. In October '50, the Collr. of S.Kanara reported that in Puttur Major Panchayat Area of Puttur taluk of the S.Kanara dt., the locality-street system of numbering was adopted. According to the Govt's instructions, the ~~numbering of~~ buildings should have been numbered in separate series for each street in every locality, but the Collr. reported that in this Panchayat area ~~locality but~~ the buildings were numbered in one series for the entire Panchayat area. As there was no time to revise the house numbering, it was ordered that the existing arrangement may be allowed ~~allow~~ to remain till the next revision of the electoral rolls. The Collr. now states that the numbering of houses with this Panchayat area may be ordered to be revised before the next revision of the rolls.

3. It would be seen that the door numbers of all the houses except in street number 1 in locality number 1 will have to be altered. ~~and thus in respect of~~ This means that the entries relating to every voter ~~will have to be~~ should be amended, ~~amended and~~ with the result that) would be it ~~seems~~ necessary ~~that~~ the entire roll will have to be reprint if they are to be used with ease and without confusion. ~~done in respective of whether the Panchayat area happens to be included reprinted if the house numbering is to be altered.~~ This may have to be done, irrespective of whether or not the Panchayat area happens to be included in the Assembly constituenci that will be selected for ~~intensive~~ intensive revision this year. The Collr. may be asked to instruct the Executive Officers of the Panchayat ~~concerned~~ to carry out re-numberin of the houses in accordance with the Govt. instructions very urgently under the supervision of the Tahsildar and report completion of the

26/5/52

work before 15.6.1952. Submitted for orders.

4. It has also to be considered how the changes in ~~the~~ house-numbering should be carried out in ~~the~~ the electoral rolls. It may first be necessary to prepare a correlation list with reference to ~~ref.~~ the original house numbers and the house numbers as altered. Only the third number in the house number as printed in the roll, that is, the door number (the number painted on the door) will change. This may, perhaps, be carried out in manuscript in the number of printed copies of ~~the~~ rolls that will be required for preparing the draft rolls in the annual revision. The draft rolls incorporating the changes in the house numbers and the other amendments, proposed as a result of the house to house enquiry, if there is intensive revision in the rural area or the amendments that come to the knowledge of the E.R.O. if there is non-intensive revision, will have to be reprinted before they are published under rule 9 of the R.P.(P.E.R.) Rules, 1950. But instructions in this regard may perhaps issue after the issue of general instructions on the revision of electoral rolls this year. For orders.

26/5/52

23.5.52

26/5/52

[Issued as Memorandum No. 2731/52-1.P(E) Dt.31-5-52]
[From the Collector of South Kanara, Ref.A.11.12479/52 dated 2-7-1952.]

******

With reference to the Memo. on pp.7-8, please see the report of the Collector of South Kanara on page 11 c.f.

According to the instructions in Annexure I to G.O.No. 2008 Public (Elections) dt.19-8-1948, the houses in each street in the Major Panchayat should be numbered in one series. In 1950, the Collector of South Kanara reported that in Puttur Panchayat area, the locality street system of numbering was adopted but the buildings were numbered in one series for the entire Panchayat area, instead of in separate series for each street in every locality. As it was then too late to rectify the mistakes, this irregular numbering was allowed to stand, but the Colletor was asked to rectify these mistakes during the next annual revision. The Tahsildar and the Deputy Tahsildar who were responsible for this muddle were also suitably dealt with and their increments stopped for three months.

The Collector of South Kanara now reports that it is not feasible to adopt the locality street system of numbering in the Puttur Major Panchayat area for want of formation of streets with well-defined boundaries. He has accordingly suggested that the ward-war system of numbering may be adopted in the case of this Panchayat.

In the Collector's letter on page 1 c.f. of (K) he reported that in the Puttur Major Panchayat, the locality street system of numbering has already been adopted and that the defects were only in respect of numbering of houses. It is very curious that the Collector now wants to adopt a different system, that is

(P.T.O.)

is numbering according to the ward-war system. It is also curious that these difficulties were not pointed out by the Collector in 1950.

There seems to be some serious muddle in the entire affair. Before the Collector's present proposal is approved, he may be asked to explain more clearly why this different system of numbering is suggested now. He may also be asked to send a printed copy of the electoral roll relating to the Panchayat and also a copy of the rough plan of the area.

A draft Memo. is submitted. ~~Issue after seen before issue~~.

10/7/52. 10.7.52 10/7/52 Secy. P.(E)-I. 10.7.52

Issued as Memo.No.115/52-1 dated 10th July 1952 From the Collector of South Kanara, Ref:C.No. A.11.12479/52 dated 20-8-1952. p15 ct p17 ct

*****

The note from p.3 ante may be perused. With reference to the Memo. on p.15 c.f., please see the report of the Collector of South Kanara on p. 17 c.f. The sample copies of rolls put up below may also be perused. From the sample copies of rolls, it may be observed that the locality and the streets have been correctly numbered. But the houses, instead of being numbered in separate series for each street in every locality, have been continually numbered in one series for the entire Panchayat The Collector explains on p17 ct why this continuous numbering has been adopted for the houses.

(Contd.)

3174

The suggestion of the Collector now is that either the existing ~~xx~~ system of numbering ~~have been~~ may be allowed to continue during this revision or the wardwar system of numbering ~~was adopted~~ which exists in most other panchayats may be adopted. If the second alternative is adopted, ~~in~~ The houses will have to be re-numbered before the ~~remunerations~~ enumerations are taken up and the entire rolls will have to be re-printed. If this is to be done, the ~~renumberations~~ enumeration work will have to be postponed pending the re-numbering of the houses. As the defect is only in the numbering of houses, it seems that ~~the~~ it defect can be allowed to remain till the question of the reprinting ~~xxx~~ of the rolls is taken up after three or four years. The existing rolls have been used without any difficulty during the last General Elections. // The Census Office may also see for remarks as any change in the numbering of the houses may affect the National Register.

No. 1115/52-5

PUBLIC OFFICE 1082/52 20 SEP 1952

No. 1082/52

Camp Clerk

I inspected Pullur major Panchayat in company with the Et. Dy Tahsr and the Ex Officer of the Panchayat. I went round the whole panchayat. The locality-street system of house-numbering is insisted for this place. Except on the main roads & certain other roads, the houses are scattered. The seven localities into which the panchayat has been divided are the seven Electoral wards. The house-numbers are the assessment numbers originally issued before the introduction of the house-numbering system. The locality numbers and the street numbers were added to the original assessment numbers to conform to one of the numbering systems introduced in 1948.

After inspection of the whole Panchayat I have decided that the present locality-street system should be cancelled and the Block system of numbering introduced. I think the present localities may be retained as blocks with the exception of localities I and VII which may be bifurcated into two each. I have indicated in the plan kept below the resolution the bifurcation of the new blocks. The panchayat may be divided into nine blocks.

The houses are scattered except on the main roads. I have instructed the Ex. Officer and the Et. Dy Tahsr to re-number the buildings in each block serially beginning from the north-western corner and proceeding eastward in a clock-wise manner where the buildings are scattered and along the main roads where the buildings are contiguous. Every building (including a shop) with a separate main entrance should be given a separate number

The Ex. Officer raised the question of remission of house-tax for portions of buildings with separate main entrances and house numbers but for which there is only one Panchayat assessment number. I have explained to him that he should open a separate column in his assessment register or open a new register in which the existing panchayat assessment numbers should be shown with the corresponding house-numbers under the permanent house-numbering system. As he will continue to have only one assessment number, he can dispose of such cases according to rules.

The Sub-Dy Talukdar raised the question of printing of separate electoral rolls for the new blocks. He said that according to existing orders of Govt. separate rolls can be printed only for localities. If the locality-wise system of numbering are to be abolished and the block system introduced, separate rolls for the blocks cannot be printed. This change over will not be liked by candidates standing for election to separate Panchayat wards as they will have to buy the whole roll for the Panchayat instead of the portion relating to the ward for which they are standing. I can understand that in the case of villages divided into blocks, the roll is printed for the whole village, treating the village as the unit. In the case of panchayats having block-wise numbering, cannot the rolls be printed separately for each block? Part (Sub) may consult the Govt. in this case.

p 1 cf

With reference to the general instructions regarding the rectification of defects in house numbering, the Collector of South Kanara brought to the

p 5 cf

notice of Government about the defects in the Puttur Major Panchayat. In this area the locality-street system of

p 5 cf

numbering has been adopted. For this system the houses in each street should have been numbered in a separate series, but it is found that all the houses in the whole Panchayat have been numbered in a single series. The whole area is divided into seven localities and in each area one or two streets have been shown in the electoral rolls. On the ground that each street in each locality does not bear a fresh series of house numbering, which is in contravention of the instructions

Sc o's note on p 7 ante

Ref pf below

p 3 cf (N)

in para 5 of Annexure I to G.O.No.2008, Public (Elec.) dated 19-8-1948, the Collector was asked to get the

pp 7-8 cf

houses renumbered so that the entire electoral roll of the Panchayat area might be got revised during the current annual intensive revision. In reply to this,

p 11 cf p 17 cf

the Collector reported that for want of well formed streets in the Panchayat and owing the houses being in a scattered condition, the locality street system of numbering was not feasible in this case and that the block system of numbering may be adopted. On a further clarification called for from the Collector, it is

(V)

found from the Electoral rolls that the locality system of numbering has been followed and excepting for the fact that each street does not have a fresh series of numbering, there is no other defect in the house numbering for all practical purposes. In this connection the S.C.O's note on pp.7-8 ante after inspection of the whole Panchayat area may be perused. It is

p 7 ante

stated that the locality-street system of house numbering is unsuited for this place owing to scattered condition of houses etc. He has therefore suggested that the Block system of numbering should be introduced in

in the place of the existing system, by dividing the Panchayat into 9 ~~areas~~ Blocks. He has also stated that he has instructed the Executive Officer and the Ele. Dy. Tahr. to renumber the houses in each block in separate series as per standing instructions. If this suggestion is to be adopted then the whole electoral roll of the Panchayat will have to be re-arranged in accordance with the new house numbers found in each block, and fresh National Registers of Citizens have to be also prepared cancelling the existing ones. This will involve a lot of work and can be done only at the next annual revision or under the provisions of section 25(a) of the R.P. Act, 1950 if it is to be done earlier. As regards 'A' on p.8 ante, it is submitted that according to para 4(3) of Memo. No.7428/48-1, dated 1-11-1948, electoral rolls are printed separately for each block in a Major Panchayat and hence the difficulty mentioned does not really exist.

pp 7-8 ante

2

p 57 of the Election Manual

p 2 of (O)

M

2. In para 5 of Annexure I of G.O.No.2008, Public (Elec), dated 19-8-1948 it has been stated that existing house numbers in the streets of Major Panchayats and Municipalities are not to be disturbed. Thus taking for example the lengthy streets in the Madras City, which are situated in more than one locality, it may be stated that the portions of the streets lying in each locality do not contain a fresh series of numbering, but that the whole street is numbered in one series. The existing numbers of houses (beginning anywhere in the middle) lying in the concerned locality are adopted and even the National Registers of Citizens are written separately for each portion of the street with those house numbers. Each portion of the lengthy streets are given different numbers with reference to the locality. Extending the same principle in a rather wider way to the electoral rolls of the Puttur Major Panchayat, it may be said that there is practically no harm in the house numbers

p 3 of (N)

being in one series for the whole Panchayat, the relevant house numbers lying in each locality having been adopted for the electoral roll of that locality. Further no difficulty seems to have been experienced in the last general elections conducted on the basis of the existing rolls.

In the above circumstances, it is for orders whether the existing numbering in the electoral rolls of the Puttur Major Panchayat will be allowed to remain as they are, or whether the numbering will be ordered to be revised in accordance with the block system as suggested by the S.C.O.

The existing numbering may continue.

I am inclined to agree with the above note. S.C.O. may see again for remarks especially in regard to the absence of house numbers in the Puttur Panchayat.
24/12/52
Public (Elections)

Please see the note of the S.C.O. above. In the office note dated 9-12-52, it is explained. In view of the difficulties expressed by the S.C.O. in changing the existing house numbering and also in view of the fact that there have been no differences for any purpose with the present numbering the orders were sought for on the point whether it was necessary at all to change the existing numbering to be taken up in the next general revision. As it may not be rather too early to decide on this question now even for the purpose of implementing the orders at the next revision, I revised the matter be taken whether the present numbering in the Puttur Panchayat be allowed to remain as it is or whether renumbering is necessary.
